PROFILE

Self-taught, hard-working web developer and graphic designer with a flair for creating functional websites and elegant graphics in the digital world. I like to think clean UI designs; create simple content structures; code responsive sites for great UX; and bring ideas to life in the browser. I'm quietly confident, naturally curious, and perpetually working on improving my chops.

I have successfully created and launched live website for epcsol.com and implemented SEO, alongside some small projects for learning purposes.
